SUMMARY

Data Analyst and aspiring Machine Learning Engineer with hands-on experience in data analysis, visualization, predictive modeling, and frontend development. Skilled in Python, SQL, Power BI, Excel, React.js, and Machine Learning, with a passion for solving real-world business problems through data-driven decision-making and intuitive digital experiences.

WORK EXPERIENCE

Junior Data Analyst – Swasth sampada Healthcare PVT . LTD July 2026 to Present

- Analyzed, cleaned, and transformed business data using Excel, SQL, and Python (Pandas/NumPy) to maintain data quality and accuracy.
- Performed Exploratory Data Analysis (EDA) to identify trends, patterns, anomalies, and actionable business insights.
- Developed Excel and Power BI dashboards using DAX and interactive visualizations for business performance tracking.
- Created SQL queries and MIS reports, collaborated with teams to understand reporting requirements, and delivered accurate data-driven insights to support decision-making.

Data Analyst Internship Feb 2026 to Apr 2026

- Worked on real-world data analysis projects using data cleaning, preprocessing, and exploratory data analysis to extract insights. Applied analytical thinking and visualization techniques to support data-driven decision making and improve project outcomes.

Frontend Developer Internship Jan 2025 – Apr 2025

- Built a responsive React.js fitness platform with real-time activity tracking. Integrated Firebase Authentication for secure user login and registration. Improved UI/UX with responsive and user-friendly design.. Developed reusable React components for scalable and maintainable code.

EDUCATION

B.Tech in Computer Engineering Aug 2022 – June 2025

- Ganpat University, Gujarat
- Final CGPA: 6.50 of 10

Diploma in Computer Engineering Aug 2019 – June 2022

- Ganpat University, Gujarat
- Final CGPA: 9.0 of 10

KEY SKILLS

- Programming Languages** : Python (NumPy, Pandas, Scikit-learn), JavaScript
- Data Analysis** : Data Cleaning, Data Preprocessing, EDA, Statistical Analysis, Feature Engineering
- Machine Learning** : Regression, Classification Algorithms, Basic Deep Learning Concepts
- Data Visualization** : Power BI, Matplotlib, Seaborn, Microsoft Excel
- Databases** : SQL, PostgreSQL
- Web Technologies** : HTML5, CSS3, Tailwind CSS, JavaScript, React.js
- Tools & Platforms** : Git, GitHub, Jupyter Notebook, VS Code, Google Colab

PROJECTS

Customer Churn Prediction

Python | Pandas | NumPy | Scikit-learn | Matplotlib | Seaborn | TensorFlow/Keras

GitHub : <https://github.com/Nidhi-0110/Churn-Prediction>

- Developed an end-to-end Machine and Deep Learning application that predicts whether a customer is likely to churn based on customer demographics and service usage data. The project includes data preprocessing, model training, evaluation, and deployment through an interactive Streamlit web application for real-time predictions.

HR Analytics

Python | Pandas | NumPy | Scikit-learn | EDA | Matplotlib | Seaborn | Data Visualization | Power BI

GitHub : https://github.com/Nidhi-0110/HR_Analytics

- An end-to-end HR Analytics project that integrates Data Analytics and Machine Learning to analyze employee workforce data, uncover attrition trends, and predict employee turnover. The project provides actionable insights through EDA, visualizations, and predictive modeling, enabling data-driven HR decision-making.

Heart Stroke Prediction Model

Python | Pandas | NumPy | Scikit-learn | Streamlit | Matplotlib | Seaborn

GitHub : <https://github.com/Nidhi-0110/Heart-stroke-Prediction>

- Developed a machine learning-based healthcare application to predict the risk of heart stroke using patient medical and lifestyle data. The project includes data preprocessing, exploratory data analysis (EDA), feature engineering, model training, and performance evaluation to support early risk detection. The solution demonstrates practical applications of predictive analytics in healthcare.

CERTIFICATIONS

- Data Analyst Internship — Elevate Labs (Feb 2026 – Apr 2026)
- Deloitte Australia - Data Analytics Job Simulation Program— Forage
- Data Analytics — NoviTech R&D Private Limited (Dec 2025 – Jan 2026)
- Power BI Micro Course — SkillCourse (Jan 2026)
- Analyzing and Visualizing Data Analytics with Microsoft Power BI — Microsoft
- Frontend Developer — Jan 2025 – Apr 2025)
- Certificate for Skill Competency — National Council for Vocational Education and Training (NCVET), MSDE, Government of India (Aug 2024 – Jan 2025)

CORE COMPETENCIES

Continuous Learning | Problem Solving | Team Collaboration | Communication | Time Management | Analytical Thinking | Attention to Detail
